

A PRACTICAL AND INEXPENSIVE WAY TO CLOSE A VARIETY OF ALUMINUM FOIL CONTAINERS

The Angel Crimp foil lid closure device crimps flat board or plastic dome covers to aluminum foil rectangle or round containers.

Perfect for manual operations or lower volume / seasonal requirements. The crimper can quickly close containers with minimal effort, making your operation more productive. The positive rim closure guarantees tight, attractive packages ...and stops damage to your fingers.

KEY FEATURES

- Ideal for short or temporary production runs.
- Approximately 10 units per minute.
- 9 stock sizes, custom options available.
- Simple, one-handed operation with minimal force needed.
- Compatible with interrupted vertical curl, hemmed or raw edges.
- Laminated board or plastic dome covers.
- Tight, attractive, uniform sealing helps prevent leaks and unexpected opening.
- Lightweight, durable sand cast aluminium construction is portable and sturdy.
- Easy to maintain and clean.

**AVAILABLE FOR
ROUND OR
RECTANGLE TRAYS**

APPLICATIONS

- Meals on Wheels
- Catering
